BACKGROUND:

The consultant, toXcel LLC, on behalf of the registrant, Special Materials Company has submitted an application for registration of an integrated manufacture-use product called AVANCID GL 50M. This product is used for formulating industrial bactericides and preservatives. The product is for non-food use.

The product chemist reviewed the following documents:

1. Cover letter from the registrant to EPA, September 22, 2014.
2. Basic Confidential Statement of Formula (CSF), September 12, 2014, July 15, 2015 and August 12, 2015.
3. Label, September 22, 2014.
4. Application for Pesticide Registration, September 22, 2014
5. Certification with Respect to Citation of Data, September 22, 2014.
6. Confidential Data Matrix, September 22, 2014, page 1/7 -3/7 pages.
- 7.

49475201	Goad, E. (2014) Avancid® GL 50M: Product Chemistry. Project Number: 38456, P801, 140108/4H. Unpublished study prepared by ToXcel, LLC. 162p.

FINDINGS:

1. Basic CSF, September 12, 2014 and July 15, 2015 are obsolete.
2. Basic CSF, August 12, 2015 supersedes all previous Basic CSFs.
3. The nominal concentration of the active ingredient on the Basic CSF, dated August 12, 2015 is consistent with the label.
4. All ingredients in this formulation are approved for use in pesticide formulations.
5. Certified limits of all the ingredients are within the EPA Standard Certified Limits.
6. Group A product chemistry data requirements applicable to end-use products have been met (see MRID 49475201 and Table A below).
7. Group B product chemistry data requirements applicable to end-use products have been met (see MRID 49475201 and Table B below), with the exception of the 830.6317 Storage Stability guideline.
8. MRIDs 41071401, 41070301, 41070501, and 41168703 fail to satisfy the 830.6317 Storage Stability guideline for the proposed product, which has a nominal concentration of 50% for the active ingredient. MRIDs 41071401,

74712-I_D423412_AVANCID GL 50M

41070301, and 41070501 address the said guideline for products having a nominal concentration of 45% for the active ingredient, which differ from the proposed product, and which thereby make it unacceptable for satisfying the 830.6317 Storage Stability guideline for the proposed product.

9. MRID 41168703 addresses a physical and chemical characteristics summary for AQUICAR 545 Water Treatment Microbiocide and fails to address the 830.6317 Storage Stability guideline.

CONCLUSION:

Product Science Branch of Antimicrobials Division finds the Basic CSF, dated August 12, 2015 to be acceptable and to supersede all previous Basic CSFs. Group A and Group B Product Chemistry data requirements have been met, with the exception of the 830.6317 Storage Stability guideline. The unmet data requirement must be submitted upon completion.

**Re: Application for a New Manufacturing Use Product: ADVANCID® GL 50M
EPA File Symbol 74712-1**

Dear Mr. Miederhoff

On behalf of the Special Materials Company, please find enclosed an application for the new manufacture use product, **ADVANCID® GL 50M** (EPA File Symbol 74712-1). Along with this application package we have submitted separate application packages for five additional new glutaraldehyde products, one is identical, and the four others are each simple aqueous dilutions of this new source product. All registrations of these formulations are dependent upon this new source. The additional dependent products are:

EPA File Symbol	Product Name	Use	Glutaraldehyde
74712-O	ADVANCID® GL 50	EP	50% (undiluted)
74712-L	ADVANCID® GL 45M	MP	45%
74712-T	ADVANCID® GL 45	EP	45%
74712-A	ADVANCID® GL 25	EP	25%
74712-RN	ADVANCID® GL 15	EP	15%

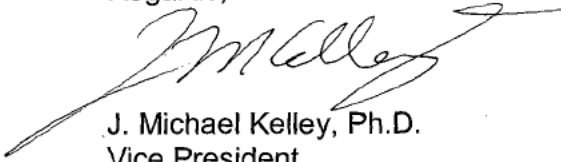

To this end, we have included with this registration application package the following administrative and supporting product chemistry documentation:

- Cover Letter, EPA Form 8570-1, Transmittal Document,
- Confidential Statement of Formula (2 Copies)
- Public and Confidential Data Matrices
- EPA Form 8570-34 Certification with Respect to Citation of Data
- Label (5 hard copies) and one digital copy with Certification of Label Integrity Form.
- Small Business Waiver Documentation
- PRIA Payment Receipt
- Product Chemistry Volume.

It is anticipated that this registration will be categorized for this product as a PRIA A560, "New manufacture use product, registered active ingredient, selective data citation" with a decision review time of one year. The dependent products would be coded to be associated with the same decision time.

If you have any questions or require additional information, please contact me by e-mail at Mike.Kelley@toxcel.com or by phone at (703) 754-0248 x 112.

Regards,
